

GO MOBILE. GO MARSON.®

Introducing the New Marson® BT-3 Cordless Rivet Tool

Marson® is making installation more efficient with the advanced new BT-3 battery-powered cordless rivet tool. Improved features include: stronger pulling force, longer stroke and an ability to install larger fasteners. This new rechargeable tool features all the reliability and performance you would expect from Marson, along with superior features and specifications:

Capacity: 3/16" (4.8mm) – 1/4" (6.4 mm)

Stroke length: 1.18" (30mm)

Pulling force: 4,600 lbs (20,000 N)

Weight: (with Li-ion battery pack) 4.4 lbs (2 kg)

Battery pack: 20V / Li-ion / 2.0Ah

Recharge time: approximately 30 minutes

Tool accepted: Li-ion

The Marson BT-3 includes nose tips for 5/32", 3/16", and 1/4" rivet sizes* and is ideal for a wide range of uses including construction, trailer, furniture, lighting fixture, and sign assembly, and many more installation applications.

**Optional nose tips for 3/16" and 1/4" Monobolts are also available*
